Product Parameter of the Anti Slip Rubber Walkway Mats For Blind Road:

- ①Product name: **Anti Slip Rubber Walkway Mats For Blind Road**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet
- ⑫Payment Terms: T/T,L/C and so on.

⑬ Shipment Way: Vessel, Air, Express etc.

Product Feature AND Application of the **Anti Slip Rubber Walkway Mats For Blind**

Road:

Rubber mats for blind road is a convenient road facility for the safety of the blind. Generally paved by three types of brick, one is strip direction guide brick, guide the blind rest assured forward, called walking blind brick, or blind direction guide brick; One type is the cue brick with dots, indicating that there are obstacles in front of the blind, it is time to turn, called the cue blind brick, or blind direction guide brick; The last category is blind road danger warning lead brick, dot larger, warning do not go beyond, danger in front.

Black rubber mats for blind road according to the national industry standard size specifications production, excellent design, with a sensitive sense of touch, strong corrosion, wear resistance and long life and other characteristics. This high strength plastic rubber blind brick surface is beautiful and smooth, suitable for indoor or outdoor decoration. Concave and convex models not only make blind roads safer, but also beautify the environment.

It is mainly used for laying of urban roads and railway stations, bus stations, subway platforms, intercity railways and sidewalks. It is a special facility for disabled people to walk barrier-free safely.
